EDUCATION

Smt. Kashibai Navale College of Engineeering, *Bachelor of Engineering in Information Technology*
2023 – Present | Pune
CGPA-9.1

SAM High School, *Higher Secondary Certificate (HSC – State Board)*
2021 – 2023 | Nandurbar, India
Percentage: 85%

SAM English Medium School, *Secondary School Certificate (SSC – State Board)*
2019 – 2021 | Nandurbar, India
Percentage: 94%

SKILLS

Languages: C++ | JavaScript | SQL

Web Development: HTML | CSS | React | Three.js | WebRTC

Backend & Databases: Information / Sub-skills | Supabase | REST APIs | Authentication

Core Computer Science: Object-Oriented Programming (OOP) | DBMS(SQL,MongoDB) | Data Structures & Algorithms(DSA)

Developer Tools & Platforms: Information / Sub-skills | Git | GitHub | Vercel | Figma | Canva

EXTRA-CURRICULAR

E-Cell (Entrepreneurship Cell),
Tech Lead & Sponsorship Team Member
Led technical planning and supported sponsorship outreach while co-organizing **Fusion Hackathon** (₹2L prize pool, 400+ participants, 120+ teams) and **E-Conclave** with startups and industry speakers.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern, *Mendygo*
11/2025 – Present | Pune
- Implemented **30+ dashboard screens** from provided Figma designs using **React**, independently building the frontend UI
- Developed role-based dashboards for **HR, Admin, and Intern portals** with focus on usability and responsive layouts
- Collaborated with backend developers to adapt dashboards for **company-specific workflows**
- Contributed code via **GitHub**, following team version control practices

Product & Operations Intern, *TheSubscription*
11/2024 – 09/2025 | Pune
- Assisted in **product planning and SRS documentation**, contributing to feature discussions and user flow definition during pre-launch
- Created and executed **test cases**, performed **functional testing and UI validation**, and coordinated with UI and development teams post-launch
- Managed and reviewed **application dashboards** and represented the product at **events and competitions**, presenting features and gathering feedback

PROJECTS

MedLink (Smart India Hackathon Project) ,
Web Application | Supabase, Antigravity, OCR, Gemini API
- Built a **secure file storage and sharing platform** enabling patients to upload medical records and share them digitally with doctors
- Implemented **document text extraction and AI-based summaries** using OCR and Gemini API to generate patient-friendly insights from medical files
- Collaborated on frontend development and backend integration using **Supabase**, focusing on usability and real-world healthcare workflows

WebRTC File Sharing Application , *Web Application | JavaScript, WebRTC*
- Developed a **peer-to-peer file sharing web application** using WebRTC, enabling direct browser-based transfers without server storage
- Implemented connection handling and file transfer logic to support fast and secure real-time sharing .Simple, technical, credible.

College Event Websites (E-Conclave & Fusion Hackathon) ,
Frontend Development | React, Three.js, JavaScript
- Built **interactive and responsive event websites** using **React and Three.js**, enhancing user engagement through modern UI and 3D visual elements
- Contributed to UI improvements and feature updates on the **main college website**, supporting real users during live technical events

ACHIEVEMENTS

Winner — Internal Smart India Hackathon (SIH)

Problem Solving & DSA Practice (LeetCode)
Solved **150+ Data Structures and Algorithms problems** on LeetCode, covering arrays, strings, and core problem-solving patterns
