PROFESSIONAL EXPERIENCE

Dramsve , *Full Stack Developer Intern* 10/2026 – Present | Remote
- Designed and developed **aimersmedia** a social media company website, as the sole developer, using **Next.js** for SEO-optimized rendering and **GSAP** for rich animations and responsive layouts
- Deployed the website on **Vercel** and handed over project ownership to the client for deployment on their own domain
- Fixed bugs, improved UI and redesigned components on **MyTestCart**, an existing platform for NEET aspirants outside India
- Building a website for a **multispeciality hospital**, taking it from design to development

Mendygo , *Frontend Developer Intern* 11/2025 – 03/2026 | Remote
- Built **30+ responsive dashboard screens** in **React** from Figma designs, independently owning the frontend UI
- Developed **role-based dashboards** for **HR, Admin and Intern portals**, focusing on usability and responsive layouts
- Worked with backend developers to adapt dashboards to **company-specific workflows**
- Contributed to the codebase through **GitHub**, following team version control practices

TheSubscription , *Product & Operations Intern* 11/2024 – 09/2025 | Pune
- Contributed to **product planning** and wrote **SRS documentation**, helping define features and user flows before launch
- Wrote and executed **test cases** for functional testing and UI validation; coordinated with UI and dev teams post-launch
- Managed and reviewed **application dashboards** to keep them accurate and usable
- Represented the product at **events and competitions**, presenting features and gathering user feedback

PROJECTS

MedLink (Smart India Hackathon Project) , *Web Application | Supabase • OCR • Gemini API*
- Built a **secure platform** for patients to upload medical records and share them with doctors
- Implemented **OCR text extraction** and **Gemini-powered summaries** to give patients readable insights
- Integrated frontend with **Supabase** backend, focusing on real-world healthcare workflows

SunDrip | Full-Stack E-commerce Platform , *React • Node.js • Express.js • MongoDB • Razorpay*
- Built a **MERN e-commerce platform** with secure authentication, shopping cart and responsive UI
- Developed an **admin dashboard** to add, update and remove products, reflected live on the customer site
- Integrated **Razorpay** payments and order management; deployed on **Vercel** (frontend) and **Render** (backend)

College Event Websites (E-Conclave & Fusion Hackathon) , *React • Three.js • JavaScript*
- Built **interactive, responsive event websites** with React and Three.js, including 3D visual elements
- Shipped UI improvements and updates to the **main college website** used by real users during live events

SKILLS

Languages
C++, JavaScript, SQL

Frontend
HTML, CSS, React, Next.js, Three.js, GSAP

Backend & Databases
Node.js, Express.js, MongoDB, Supabase, REST APIs, Authentication, Razorpay

Core Computer Science
OOP, DBMS (SQL, MongoDB), Data Structures & Algorithms

Developer Tools & Platforms
Git, GitHub, Vercel, Render, Figma, Canva

EDUCATION

Bachelor of Engineering in Information Technology, *Smt. Kashibai Navale College of Engineering* 2023 – Present | Pune
CGPA-9.1/10

Higher Secondary Certificate (HSC – State Board), *SAM High School* 2021 – 2023 | Nandurbar, India
Percentage: 85%

Secondary School Certificate (SSC – State Board), *SAM English Medium School* 2019 – 2021 | Nandurbar, India
Percentage: 94%

ACHIEVEMENTS

Problem Solving & DSA Practice (LeetCode)
Solved 300+ Data Structures and Algorithms problems on LeetCode, covering arrays, strings, and core problem-solving patterns

EXTRA-CURRICULAR

E-Cell (Entrepreneurship Cell), *Tech Lead & Sponsorship Team Member*
Led technical planning and sponsorship outreach for **Fusion Hackathon** (₹2L prize pool, 400+ participants, 120+ teams) and **E-Conclave**, working with startups and industry speakers.
